**Nirmalaya disposal and Plastic Pollution**

## Our Founder Pillar Respected Shri Yoganand Kale

प्राचार्य योगानंद काळे हे आपल्या आर.एस.मुंडले धरमपेठ कला व वाणिज्य महाविद्यालयाचे माजी प्राचार्य, यांची आपल्याला ओळख व्हावी या निमित्त हे लेखन.

या महाविद्यालयाची वाणिज्य शाखा यांच्या नेतृत्वत निर्माण झाली हे आपले काळे सर. सर १९६४ साली जी.एस. अर्थ वाणिज्य महाविद्यालयातून एम.कॉम. झाल्या नंतर ते या महाविद्यालयात अधिव्याख्याता म्हणून रुजू झाले.

त्या वर्षी म्हणजेच १९६४ साली वाणिज्य शाखा आपल्या महाविद्यालयात सुरू झाली व वाणिज्य शाखेचे विभाग प्रमुख म्हणून सर कार्यभार सांभाळू लागले. वाणिज्य शाखेतील सर्व विषय काळे सर शिकवित व त्यांच्या नेतृत्वात वाणिज्य शाखेचा विस्तार झाला.

आर.एस.मुंडले धरमपेठ कला व वाणिज्य महाविद्यालयातील वाणिज्य शाखा हि विदर्भात शिक्षण क्षेत्रातील अव्वल शाखा म्हणून ओळखली गेली, माणसाचे माणुसपण म्हणजे काय हे काळे सरांकडून शिकण्या सारखे आहे. त्यांनी वाणिज्य शाखा हि एक परिवार म्हणून विकसित केली.

### जीवन म्हणजे तरी काय ?

इंग्रजीत असे म्हणतात स्पर्मि पे त्मसंजपवदोपच जीवन म्हणजे संबंध, संबंधा खेरीज जीवनाची कल्पना आपण करू शकत नाही. काळे सरांच्या संबंधांचा आवाका अत्यंत व्यापक विशाल आणि सर्वांना सोबत घेऊन चालण्याचा होता असे म्हणतात. जीवनाची खरी संपत्ती मालकीत नसुन सामितीत आहे या आपुलकीचा विस्तार म्हणजे प्रगती किंवा विकास, काळे सर प्राध्यापक व विद्यार्थी यांना सोबत घेऊन चालले. त्यांनी आपुलकीचा विस्तार केला. या मुळे ते जसे विद्यार्थ्यांमध्ये लोकप्रिय होते त्याच प्रमाणे प्राध्यापकांशी देखिल आपुलकीचे व प्रमाचे संबंध होते.

काळे सर नेहमी म्हणायचे, माणुसपण म्हणजे काय, मानवी जीवनाचे श्रेयस कशात आहे मानवी जीवनाची ध्येय दृष्टी काय असावी या मुलभूत प्रश्नाच्या अनुषंगाने शिक्षण व्यवस्थेचा विचार व्हावा असे त्यांना नेहमीच वाटते.त्यांच्या काळात वाणिज्य शाखेचा अनेक दृष्टीने बहुअंगी विकास झाला. काळाची आव्हाने व शिक्षण व्यवस्थे समोरील आव्हाने याचे खरे स्वरूप त्यांनी ओळखले आणि म्हणूनच वाणिज्य शाखेत इंग्रजी माध्याची सुरुवात, एम.कॉम.एम.फील या अभ्यासक्रमांची सुरुवात त्यांच्या काळात झाली.

महाविद्यालयाचे प्राचार्य असतांना विद्यार्थ्यांना त्यांच्या बददल एक आदरयुक्त भीती होती. त्यामुळे त्यांच्या नेतृत्वात वाणिज्य शाखेच्या विस्तारा बरोबरच संपूर्ण महाविद्यालयाने आपली एक विशिष्ट ओळख निर्माण केली. इंग्रजीत एक प्रसिध्द वाक्य आहे “Every Educational Institute has to have its own Character it needs to stand for something”

महाविद्यालयाला एक स्वतःची ओळख निर्माण करून देण्यात काळे सर यशस्वी झाले. १९८९ ते १९९५ या काळात ते संपूर्ण महाविद्यालयाचे कला वाणिज्य व विज्ञान या सर्व शाखा मिळून असलेल्या महाविद्यालयाचे प्राचार्य होते. तीन हजार च्या वर विद्यार्थी संख्या असलेल्या महाविद्यालयाचा कार्यभार त्यांनी यशस्वी पणे सांभाळला व महाविद्यालयाला विद्यापीठ स्तरावर स्वतंत्र ओळख निर्माण करून दिली.

विज्ञान महाविद्यालयात एम.एस.सी. प्राणिशास्त्र हा पदव्युत्तर अभ्यासक्रम सुरू झाला. काळे सर १९९५ मध्ये रा.तु.म नागपूर विद्यापीठाचे पहिले प्र-कुलगुरु झाले पुढे देखिल त्यांनी रा.तु.म.नागपूर विद्यापीठत आपल्या व्यक्तीमत्त्वचा ठसा उमटविला हे सर्व करित असतांना विद्यापीठाच्या अनेक समित्यांवर ते राहिले परंतु त्याच बरोबर त्यांच्या शिक्षण क्षेत्रातील कामाचा विचार करून केन्द्र सरकारने त्यांची ऑल इंडिया इंस्टीटयुट ऑफ एडव्हान्स्ड स्टडिज च्या कार्यकारी समिती वर नियुक्ती केली. महाराष्ट्र सरकारने खाजगी महाविद्यालयांना मिळणारे वेतनेतर अनुदान याचे सुत्र निश्चीत करण्यासाठी जी समिती नेमली त्या समितीचे ते सभासद राहिले. त्याच बरोबर त्यांच्या अध्यक्षते खाली विद्यापीठ उपकेन्द्र निर्मितीचे निकष ठरविणाऱ्या समितीचे अध्यक्ष म्हणून महाराष्ट्र शासनाने त्यांची नियुक्ती केली. विद्यापीठात नवनवीन अभ्याक्रम निर्माण करण्या साठी महाराष्ट्र शासनाने जी समिती नेमली त्याचे ते सभासद होते.

व्यवस्थापनाशी त्यांचे फार सलोख्याचे संबंध होते, सामाजिक, राजकिय व अध्यात्मिक क्षेत्रात आजही नागपूरच्या सार्वजनिक क्षेत्रात त्याची ओळख आहे.

हे सर्व करित असतांना त्यांनी अनेक पुस्तकांचे लेखन केले व या सर्व पुस्तकांना सरकार, विद्यापीठ, व विद्यार्थ्यांनी मान्यता दिली याचा आवर्जून उल्लेख करावा असे वाटते. एकंदरीत शिक्षण क्षेत्रा मध्ये आपल्या अनुभवाचा, वक्तृत्वाचा, व कृतृत्वाचा ठसा उमटविणारे व्यक्तीमत्व आपल्या महाविद्यालयाला लाभले हे खरोखरच आपले भाग्य आहे.

**Shri. Anand Apte**  
**Treasurer, DES**

Environment is the very basis for existence of life on this planet. It is the presence of this environment that distinguishes our planet from others. Environment refers to all the elements that exist on earth which make human, plant and other life forms a reality. It refers to various elements like air, water, sunlight, forest animals etc. Various elements, its interaction with each other and cycles help to establish balance on this planet. It is this environment that helps all life forms to grow, develop and flourish on earth for thousands of years. All that a man needs and all that a man uses to sustain and live on this planet is provided by environment. The role of environment in a man's life is too crucial to be ignored. Right from the air that we breathe to the water that we consume is a gift of environment. Such is the importance of environment for a human being.

It's quite ironical and more disheartening to see that we as humans have failed our environment. We are indebted to the environment for the very breath we take. Despite knowing the importance of it, a man is busy ignoring it. We have been so busy trying to make our life comfortable that we have forgotten that such comfort is at pernicious costs. Instead of protecting and caring for our environment, we are disrupting it. We are responsible for disrupting the balance on this planet. Deforestation has become an

everyday phenomenon. Population explosion is the cause of depletion of green cover. Pollution of water bodies is affecting the aquatic life. Expulsion of harmful gases is leading to poisonous environment. Health hazards, contaminated water, acid rains are the evils which owe their existence to our foolish ways of acting.

Man is the most intelligent animal on this planet. It has the most complex brain structure that took thousands of years of evolution. It is our responsibility as the most evolved species to take care and protect our environment. All of man's intelligence is futile if it fails to understand and work for environment.

It is high time for all of us to put a check on our selfishness and start working for nature conservation. Necessary steps should be taken to repair the damage caused. Clean environment is the basic need of a man. Awareness about environment will help a lot to curb the magnitude of damage done to our environment. We should work towards developing technologies that make our life better but not ruin our environment. Inefficient utilization of resources needs to be checked. It is rightly said that we have sufficient resources needed for existence but very limited to satisfy our greed. Thus, we have to stop wastages of precious resources on our part. We should start building eco-friendly cities. We should take a vow of waste segregation and cleanliness. We have to work for harmony in environment to ensure the possibility of life on this planet in future. A wave of awareness programs, environment friendly projects, campaigns, laws has to be unleashed to curb the fire of pollution, damage, deforestation that is gutting our very precious and mother-like environment.

If proper care of environment is taken, earth would become a paradise and our existence on this earth would be much more enjoyable.

\*\*\*\*\*

## **Dr. Rajiv Ashtikar**

### **From the Principal Desk.....**

My Dear students, if you're raised in India, then you are very well versed with the term- Nirmalya. In India, million tons of temple waste (nirmalya) is produced every day. The waste collected from temple mainly consists of flowers, leaves, fruits, honey, coconuts, camphor, jaggery, milk etc. which is released in the water bodies or dumped at the available land spaces, thereby leading to severe environmental pollution and health hazards. Similarly in Maharashtra 'Ganesh Chaturthi' is celebrated with great enthusiasm. But beside celebration during these festive time, there is an important ecological concern which is about Nirmalaya Disposal. Although civic authorities and ecologist have come out with many biological ways of disposing nirmalaya like nirmalaya tanks, biodegradation of nirmalaya, turning Nirmalaya into green Gold and so on. But here we at Our College wanted our students, the future citizen to become aware of this growing problem. We wanted to share the issues and concerns about Nirmalaya and its disposal concerns and hence September months' theme on 'Nirmalaya Disposal' aptly goes during this festive time to raise the awareness of the students as well as making them responsible for practically working in this direction by way of various activities conducted to facilitate Nirmalaya in a ecofriendly way.

Dear students, the term Plastic is now become an buzz word ...Plastic which was once produced as a boon for human beings to help in their daily activities like packaging, water proofing, durability, longevity and others has simply encroached every bit and pieces of our life. The all goodies associated with Plastic has turned to an horrifying fact that Mother Earth is on the verge of being perished.. It's all ecosystem will be devastated by the Plastic Havoc.. It is an alarming time for human race to stop using plastic to the maximum extent and to evolve ways and means for freedom from this plastic daemon which will gulp our mother earth.

Hence my dear students, we at R.S Mundle College selected Plastic Pollution as theme of our E-Magazine Abhivyakti to spread this alarming situation due to plastic pollution. Our students were encouraged and motivated to work for Plastic ban in the College premises and in their vicinity. The students worked hard to convey concern about plastic in the community through various awareness programmes and Drives on "Single Use Plastic".

I wish that with the growing awareness and responsible awareness drives our students can work and contribute for the cause of eco-friendly initiatives to reduce plastic use in and around them.

I am glad to bring out this fourth issue of Abhivyakti Magazine which is a small effort to bring fore the burning issues related to our environment and lending a small step for the cause to save mother Earth.

Happy Reading!!!

**Our shining star**

**Dr.Sudhakar Ingle**

**Dr.Sudhakar Ingle, Associate professor in Commerce**

Dr.Sudhakar Ingle is credited with various academic, administrative and other assignments in which he has been holding key positions. His achievements are as follows:

- Recognized Ph.D. Research Guide in Business Management & Business Economics R.T.M. Nagpur University Vide Letter no. Acad/Recog/Guide 11/84 dt 21-04-99 & Letter no. 1495 dt. 30-10-2002.

Topics included in this case study presentation are given below

1. Auditory processing disorder
2. Dyscalculia
3. dysgraphia
4. Dyslexia
5. Dyspraxia
6. ADHD

All the students collected the cases from special schools and Hospitals and presented before the experts.

**21 Sept 2019**

## **Vermicomposting activity conducted by Shrushti Environmental Club**

Vermicomposting is a process in which culture of earthworms is being introduced in alternate layers of soil, cow dung and bio-degradable waste materials like waste papers vegetables & other kitchen wastes. This process involves decomposition of biodegradable wastes by earth worms. the process is as follows-

- 1-selection of four medium sized cement tanks.
- 2-Number tanks as 1,2,3 & 4.
- 3-Introduce moist soil at the bottom of tank 1.add a layer of moist cow dung on it.
- 4-Introduce a layer of dry leaves,vegetable wastes on it.
- 5-Again add a layer of moist soil first and then of moist soil and then a cow dung on it.
- 6-Now introduce a culture of 1kg earthworms and then keep on layerings of soil, cow dung & dry leaves,vegetable wastes on it for four to five times.
- 7-Now put a very fine lid on it.
- 8-Keep the set up in moist condition for 20 days.
- 9-After 20 days we will get a well decomposed black manure of it.
- 10-Filter manure to remove worms.
- 11-Now in tank -2 follow the same process.
- 12-We may keep collected biodegradable wastes in tank 3 & 4 for further cultures.
- 13-Now culture in tank-1 is ready as a compost for plants.
- 14-It is having high nutritional value for crop plants too.
- 15-Hence earthworms are said to be good friends of farmers.

## Unnat Bharat Abhiyaan programme conducted in 5 Villages of the adopted cluster by NSS Unit of the College

NSS unit of the College visited four villages adopted by the College as a part of Unnat Bharat Abhiyaan cluster .UBA ( Unnat Bharat Abhiyaan ) is an initiative by MHRD and IIT Delhi. Our College is a participating Institute of this programme. The College has adopted a cluster of five villages under UBA scheme.

As a part of this programme Our College NSS unit visited the Villages adopted under UBA programme.As a part of this programme various programmes were organised in the Villages .The programmes were mainly:

- Cleanliness Drive
- Village Survey
- Household Survey
- Addiction eradication awareness programme
- Single use plastic awareness drive as well as collection of plastic bags.

The programmes were well received by all the Villagers and NSS volunteers actively participated in the programme to make it success.

**27 Sept 2019**

**Fresher's day celebrated with great zeal & enthusiasm**

**A first time event with powerpacked infotaining event**

## Prize distribution by respected judges to the College winners

# REPORT FRESHERS DAY CELEBRATION: 27<sup>th</sup> September

**Venue:** R. S. MUNDLE ARTS & COMMERCE COLLEGE

**Number of persons attending:** Students, Faculty & Staff

**Number of students participated:** 22 and Volunteers

**In charge:** DR. SATISH CHAFLE , HoD of HISTORY Dept.

**Supervisor:** HEENA NAGBHIREY , AST.PROF. SOCIOLOGY Dept.

**Judges/jury members:** 1. Manjushree Sardeshpande , HoD ENGLISH Dept.

2. Shruti Sorte , Fem Mrs. India 2018 1<sup>st</sup> runner up Title winner

3. Harsha Naigaonkar , Mrs. Central india 1<sup>st</sup> runner up title winner

**On September 27<sup>th</sup>**, R. S. MUNDLE ARTS & COMMERCE COLLEGE had a bash Event in the premises of its own, which was wholly organized for the new students of the college. This is for the very first time, event like this has been conducted which not only gathered students, faculty and staff but also made them stay till the ending. The event was FRESHERS DAY CELEBRATION.

This opportunity comes from the principal Dr. Rajeev Ashtikar sir who says "the vibrating energy and the talent of the student is the only element a college possess and so, should be well explored."

In the format of this fresher's day event, students from all the departments were involved. And to have some good candidates in the contest, the college has conducted four rounds.

**Round 1:** Intellectual awareness (MCQs + DESCRIPTIVE Q/A).

**Round 2:** Social awareness (planting a tree in the premises and clicking a selfie with it) *selfie with saplings*.

**Round 3:** Mark your opinion- audio visual, video of your thoughts/ views on a social/political/crucial issue and share with website of the college.

**Round 4:** Grand finale

a. Introduction

b. Talent round

c. Question and answer round

With the first three rounds, 22 candidates were shortlisted for the finals. 11 girls and 11 boys from all the departments. The final day performances and ramp walk of the participants were designed and trained by one of the jury member madam SHRUTI SORTE MRS. INDIA 1<sup>ST</sup> RUNNER-UP 2018.

The event started with the final year and second year students who were given the responsibility of anchoring and conducting followed by the introductory speech and felicitation of the judges by the incharge of the event Dr.Satish Chafle HoD of History Department. After the felicitation

and introductory speech, the contest started as it was lined up accordingly. The contest was at its best all because of the volunteers, performers and anchors. The performances, stage setup and music system management were greatly handled by the volunteers.

After all the rounds of the contest, final discussion between jury members and score calculations, Asst. Prof. Heena Nagbhirey (Sociology dept.) the supervisor of the program declared the results. The results were:

#### **Boys-**

- Mr. FRESHERS: YASH KHANDIT
- 1<sup>ST</sup> RUNNER UP: GAURAV KOLHE
- 2<sup>ND</sup> RUNNER UP: ABHIJIT BISHT

#### **Girls**

- MISS. FRESHERS: PRAPTI DAHIWALE
- 1<sup>ST</sup> RUNNER UP: MUSKAAN RANGLANI
- 2<sup>ND</sup> RUNNER UP: KRITIKA TIWARI

With the small part of free dance round for college students and the Ramp walk of two DIVAS from the jury followed by the graceful walk of cuteness Samartha Sorte daughter of Shruti Sorte. The program was a great success.

## **Fund Raising activity in the College for the flood affected people of Kolhapur and Sangli District**

**Fund raising done in the College for the flood affected people of Sangli and Kohlapur district,Maharashtra**

**As a part of responsible citizen of the society,the students, staff of R.S Mundle Dharampeth College join hands together for the cause of fund collection of fund affected people of Maharshtra**

**Single use plastic activity conducted in the college premises by NSS students**

NSS स्वयंसेवक द्वारा स्वचता व सिंगल यज प्लास्टिक निर्मूलन कार्यक्रम महाविद्यालय मे लिया गया क्लास रुम, ग्राउंड,canteen,पार्किंग यहांसे प्लास्टिक और कचरा उठाया गया

॥ दातृत्व ॥

‘संग्रहैकपरः प्रायः’

‘समुद्रोऽपि रसातले ।’

‘दातारं जलदं पश्य’

‘गर्जन्तं भुवनोपरि ॥’

जो इतरांकडून फक्त स्विकारतात ते संग्राहक समुद्राप्रमाणे रसातळातच राहातात याऊलट दातृत्वगुण असणाऱ्या पाण्याच्या ढगांकडे पहा जे संपूर्ण पृथ्वीवर गर्जत राहतात

जो दुसऱ्यां से केवल स्विकारते हैं वह संग्राहक समुद्र की तरह सदैव रसातल में ही रहते हैं । इस के विपरित दानी बारिश के बादल को देखिए जो समुचे पृथ्वी के ऊपर गरजते रहते हैं ।

One who collects will always be at the bottom - like the ocean, the collector of gems and precious stones is condemned to the rasatala. On the other hand the one who gives it to others will always be on top - like the rainy clouds that roar on top of the world.

### चतुररु शृगलरु

एकः वनम् अस्ति। तत्र एकः सिंहः निवसति। सः अतीव क्रूरः। सः प्रतिदिनम् एकः मृगं खादति।

एकदा तत्र एकः शृगालः आगच्छति। सः अतीव चतुरः। सः सिंहं पश्यति भीतः च भवति। सिंहः शृगालस्य समीपम् आगच्छति। तं खादितुं तत्परः भवति। तदा शृगालः रोदनं करोति।

सिंहः शृगालः पृच्छति

भवान् किमर्थं रोदनं करोति।

शृगालः वदति

श्रीमन्! वने एकः अन्यः सिंहः अस्ति। सः मम पुत्रान् खादितवान्। अतः अहं रोदनं करोमि।

सिंहः पृच्छति

सः अन्यः सिंहः कुत्र अस्ति।

शृगालः वदति

समीपे एकः कूपः अस्ति। सः तत्र निवासं करोति।

सिंहः वदति

अहं तत्र गत्वा पश्यामि। तं सिंहं मारयामि।

शृगालः वदति

श्रीमन्! आगच्छतु। अहं तं दर्शयामि।

शृगालः सिंहं कूपस्य समीपं नयति। कूपजलं दर्शयति सिंहः तत्र स्वप्रतिबिम्बं पश्यति। सः कोपेन गर्जनं करोति। कूपात् प्रतिध्वनिः भवति। तम् अन्यः सिंहः इति सः चिन्तयति। कुपितः सिंहः कूपे कूर्दनं करोति। सः तत्र एव मृतः भवति।

एवं शृगालः स्वचातुर्येण आत्मरक्षणं करोति।

.....

## पर्यावरणरुनेही गणेश विसर्जनाचा श्रीगणेशा

गणेश उत्सव म्हणजे सर्वांचा आवडता सण व मराठी संस्कृतीचा सण होय, या सणाची सुरुवात लोकमान्य टिळक यांनी केली त्यांचा उाँश लोकांना एकत्र आणून त्यांना सामाजिक दृष्ट्या सक्षम बनविणे होता.दहा दिवस गणेश उत्सव सगळीकडेच थाटामाटात साजरा करण्यात येतो पण विसर्जनाच्या वेळेचे दृष्य हे निसर्गाला हानिकारक व नुकसान करणारे असते.दहा दिवस आपण गणपतीची थाटमाटात पुजा आरती करतो पण विसर्जनाच्या दिवशी मात्र तलावात किंवा विहिरीत गणती विसर्जन करून आपण ते पाणी प्रदुषित करतो तेव्हा आपल्या असे तलावात किंवा विहिरीत गणपती विसर्जना मुळे आपल्या सारखेच इतरही लोक असेच करतात, त्यामुळे जल प्रदुषणचे प्रमाण नेहमी वाढतच रहाणार. यावर उपाय म्हणजे एकचकि अशा प्रकारचे जलप्रदुण आपण टाळलेच पाहिजे.

गणपती विसर्जन कसे होते:

गणतीची मुर्ती ही आपण पाण्यात विसर्जीत करतो त्यामुळे पाणि प्रदुषित होते त्यामुळे पाण्यातील जीवांना धोका निर्माण होतो व तसेच आपल्याला देखिल हे पाणी हानीकारकच ठरत करण गणपती तयार करतांना वपरण्यात येणारे रंग व विविध रसायनां मुळे मानवी जीव देखिल धोक्यात येतो. मुर्ती विकत घेतांनाच नेहमी शाडू मातीचीच मुर्तीची निवड करावी प्लास्टर ऑफ पॅरिसची मुर्ती हि पाण्यात पूर्ण पणे विरघळत नाही व पाण्यावर तरंगते त्यामुळेच अशा प्रकारच्या मुर्ती कधीही विकत आणू नये. गणपती विसर्जना च्या आधी गैरी विसर्जनाच्या वेळेस देखिल पाण्यात निर्माल्य टाकण्यात येते त्यामुळे पाणी प्रदुषणात अधिकच भर पडतो निर्माल्या पाण्यात टाकल्या मुळे मलेरीया डेग्यु मच्छरांचा प्रादुर्भाव अधिकच वाढतो. गणपती विसर्जनाच्या मिरवणुकीत आजकाल डी.जे लावण्याचे प्रमाण अधिकच वाढले आहे परंतु मोठया आवाजात डी.जे.लावल्या मुळे ध्वनी प्रदुषण देखिल होते. त्याचा देखिल ज्येष्ठ नागरिक व लाहान मुलांना देखिल त्रास होतो.

**मुर्ती विसर्जनाचे पर्यावरण पुरक उपाय:**

तलाव किंवा नदीत गणपती विसर्जीत करण्यापेक्षा घरच्या घरी मोठ्या टाकीत किंवा बादलीतच विसर्जन करावे, मुर्ती विसर्जना पुर्वी सर्व निर्माल्या वेगळे करावे. घरच्या टाकीत किंवा बादलीत मुर्ती विसर्जीत केल्यावर न विरघळलेली माती हि झाडांसाठी वापरण्यात यावी. वेगळे केलेले निर्माल्याचा वापर खत तयार करण्यासाठी करावा. गणपती विसर्जन मिरवणुकीत किंवा गणपती आणतांना डी.जे. लावु नये म्हणजे ध्वनी प्रदुषण होणार नाही. दरवर्षी आपण गणपती विसर्जना च्या दिवशी गणपती बाप्पा मोरया पुढच्या वर्षी लवकर या असे म्हणतो पण गणपती विसर्जना नंतर तलावां जवळ साठलेला निर्माल्याचा कचरा व तलावात विसर्जनाच्या वेळी टाकलेले निर्माल्य हे वातावरण दुषित करतात अशा वातावरणात गणपती बाप्पा नाराजच होणार त्यामुळे सर्वांना पर्यावरण पुरक असा मुर्ती विसर्जनाचा मार्ग निवडवा तरच गणपती बाप्पा प्रसन्न होतील आणि आपण सर्व दरवर्षी आनंदी आणि स्वच्छ व पर्यावरण पुरक वातावरणात गणेशांतसव साजरा करू.

# प्रदुषण

निलेश सुभाश पवार

बी.कॉम २

## प्रस्तावना

विज्ञान के इस युग में मानव को कुछ वरदान मिले हैं तो कुछ अभिषाप भी मिले हैं। प्रदुषण एक ऐसा ही अभिषाप है। जो विज्ञान की काखों में ही जन्मा है और और जिसे सहन करने के लिए अधिकांश जनता मजबूर है।

## प्रदुषण के दुष्परिणाम

उपयुक्ती प्रदुषणों के कारण मानव के स्वस्थ जीवन को खतरा पैदा हो गया है। खुली हवा में लंबी सास लेने को भी तरस गये हैं आज के लोग। गंदे जल के कारण कई बीमारीया फसलों में चली जाती हैं जो मनुष्य के शरीर में पहुँचकर घातक बीमारीया पैदा करती हैं। भोपाल गैस कारखाने से रिसी गैस के कारण हजारों लोगों की जानें गईं और कितने सारे लोग विकलांग हो गये। पर्यावरण प्रदुषण के कारण न समय पर वर्षा होती है सर्दी - गर्मी का चक्र असंतुलित हो गया है। सुखा, बाढ़, ओला आदी प्राकृतिक प्रकोपों के कारण भी प्रदुषण ही है।

## प्रदुषण के कारण

प्रदुषण को बढ़ाने में कल-कारखाने, वैज्ञानिक साधनों का अधिक उपयोग फ्रीज कुलर वातानुकूलित उर्जा संयंत्र आदी दोषी हैं। प्राकृतिक संतुलन का बिगड़ना भी मुख्य कारण है। वृक्षों की अंधांधुंध कटाई बढ़ती हुई वाहनो की संख्या यह प्रदुषण के प्रमुख कारण हैं। घनी आबादी वाले क्षेत्रों में हरियाली न होना यह भी प्रदुषण का कारण है।

## सुधार के उपाय

विभिन्न प्रकार के प्रदुषण से बचने के लिये हमें अधिकाधिक पेड़ लगाने चाहिये। सहि तरिके से कुड़ा व्यवस्थापन होना चाहिये प्लास्टिक कैंरी बैग या प्लास्टिक बॉटल का उपयोग नहीं करना चाहिये, गिला कचरा और सुखा कचरा अलग अलग संकलित करना चाहिये कल - कारखानों को आबादी वाले क्षेत्रों से दूर स्थलांतरित करना चाहिये।

## Plastic Pollution: Wake up time before the plastic Tsunami will engulf us

Plastic pollution has become one of the most pressing environmental issues, as rapidly increasing production of disposable plastic products overwhelms the world's ability to deal with them.

The reality of plastic in India is as follows as per the image shown above. Like much of the world, India is struggling to dispose its growing quantities of plastic waste given how ubiquitous it has become — from our tooth brushes to debit cards. India generates close to 26,000 tonnes of plastic a day, according to a CPCB estimate from 2012. Worse, a little over 10,000 tonnes a day of plastic waste remains uncollected.

Where the danger zone is : the figure explains it better

### Some Burning Issues:

- Our plastic consumption is increasing.
- E-commerce companies too have come under fire for excess use of plastic packaging. “Online companies should be held responsible for the plastic waste they generate.
- Sikkim was a pioneer in banning plastic bags as far back as 1998. Others followed, and so far, around 22 states and UTs have bans in place, says Nigam. “But merely announcing a ban will not solve the problem of plastic disposal.
- Plastic users should be provided with feasible alternatives, which are not costly and made aware of these options
- Time will come when there will be plastic everywhere our food, Clothes, water and even our bodies.
- It’s time to act beyond!!!
- Some law to be made to ensure that producers and brand owners will be responsible for waste collection from their products
- Role and responsibility of producers in plastic waste management
